

NTIA Compliant, Coupon Eligible, DTV Signal Converters

These compact, low cost converters enable analog TVs and "digital ready" TVs to receive off-air UHF and VHF digital television signals. Simply attach your antenna to the back of the converter and it will convert your local broadcast stations' standard, enhanced, and high-definition digital signals into an analog TV signal format. This converter connects to your television using your choice of composite video (RCA jack) or 75 ohm RF cable.¹

Black enclosure
Larger buttons
Improved cooling
Refined appearance
RF loop through

Available May 08

Model 1030

1030A-ID-A1-10114

Standard Features

- Channel 3/4 software selectable
