

STANLEY

54" Finish Mower

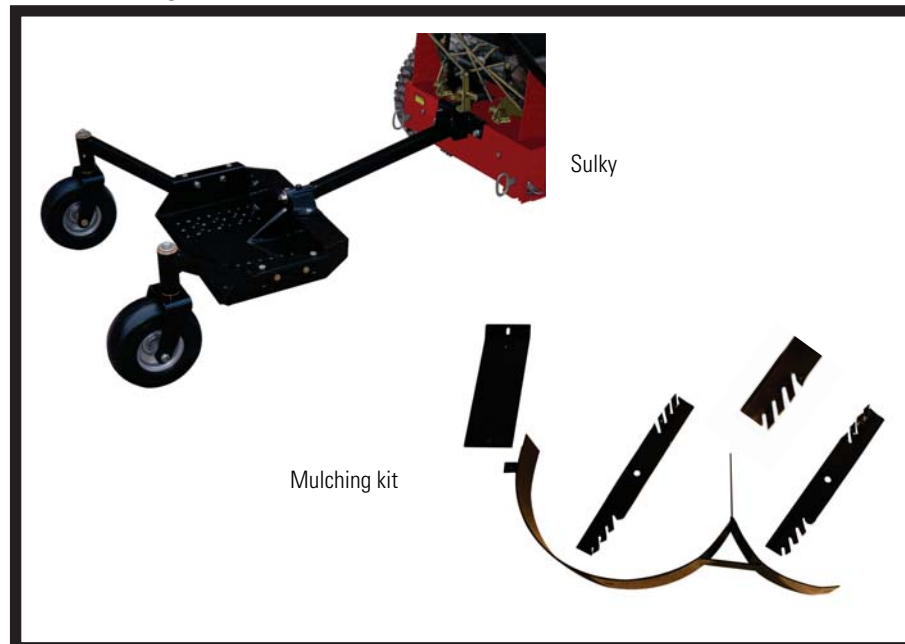

The 54 in Stanley heavy duty commercial mower powered by an electric start 20 HP Kawasaki engine paired with dual hydrostatic drives is perfect for landscapers and large lot owners. The dual hydrostatic drive system provides greater ease of use by offering superior maneuverability and infinitely variable speed control. The quick adjust floating deck allows you to alter the deck height without tools quickly and easily. Get more area cut in less time with the STANLEY commercial walk behind mower.

- Quick adjust floating deck, no tools required
- Dual hydrostatic drive for ease in maneuverability
- 54" wide cut
- High capacity deck for high speeds through tall grass
- Heavy duty 6 gauge welded steel deck
- Soft start clutch and spindle brakes
- V-Bar E-Z hydro speed control
- Commercial duty sulky available (part #SK112)
- Optional mulching kit available (part #MK36)
